BUSINESS and PUBLICITY.—Notoriety is BUSINESS and PUBLICITY.—Notoriety is the important element of success in business. It is through the newspapers of the country that this can be theroughly attained. Fortunes are accumulated in a few years by those who avail themselves of this power. The vast bene fits resulting from systematic and continuous advertising are only beginning to be understood. It is demonstrated that the increhant, the manufacturer or the mechanic may increase his business at pleasure, in proportion to the energy and means he employs in gaining publicity. Then why do not all advertise? Because business men are only beginning to realize its importance. Still the amount of advertising seen in the columns of the journals has doubled within five years, and will double again in five more. Those who bang back will see their younger and more energetic rivals outstripping them. There is no use in contending against the spirit of the age. If they won't jump into the cars and pay their fare they must so left behind to travel on toot.

The opportunity for advertising the best papers of all the cities and principal tow of the country is afforded at the Agency of V. B. P.A. AER, where the papers are filed for examination. It is authorized by the proprietors to transact the best papers are filed for examination. It is authorized by the proprietors to and adventualized.

Dry White of Zinc, 6c, per pound.
WHITE ZINC PAINT?
After thorough test in Europe and the United States, has been found to retain its beauty and protective qualities longer than any other paint. For whiteness and brilliancy it is unrivaled; it is free from all poisonous properties so common and dangerous in other pigments; will cover—equal weight—from 46 to 160 per cent, more space than lead, and is therefore much cheaper to the customer. As an inside paint, it will not turn yellow, even when exposed to the suiphurous passes of coal fires or the foul air of ships. Their White Zinc ground in varnish produces the porcelain finish. Their BROWN AND BLACK ZINC PAINTS in a few bours form a bare and solid metallic coating upon wood, brick, iron and other metallic surfaces, and are remarkable for their fire-proof properties. They are specially songited for marme purposes, having been found to resist the corroding action of salt water, so destructive to other paints. Dealers supplied on inheral terms by Dealers supplied on liberal terms by MANNING & SQUIER, Agenta, No. 45 Dey-st.
